Jonathan Goldman

The Healing Sounds Intensive was created by **Jonathan Goldman**, internationally acclaimed pioneer and teacher of Sound Healing. It is the result of numerous requests from those who wanted to experience intensive training in sound with Jonathan. This nine-day program meets for over eight hours each day, and is a step-by-step process of learning to use sound for vibrational repatterning and alignment.

Combining over 30 years of experience in exploring and teaching the uses of sound as a healing modality, Jonathan has created a program rich in experiences and information. It will cover the latest scientific material on sonics, as well as time honored sacred sounds from different traditions.

You will learn and experience in a special atmosphere of serenity and love with a select group of sonic explorers from throughout the planet. You will discover how to use your own sacred sounds for self-transformation and healing in order to enrich your life and work. You will learn how to vocalize

in group exercises using sound that will assist personal healing and planetary activation. This program is given once a year! There is no other training like this on the planet! You will experience individual and group activities to create frequency shifts that will forever transform you. At the end of the Healing Sounds Intensive you will receive a Certificate of Completion from the Sound Healers Association.
